DIVERSITe

The DIVERSITe project:

The DIVERSITe project aims to provide access points to **work-based online learning environments** for diversity management in multi-ethnic, age diverse workforces. The project aims to provide bespoke, on-demand and accessible learning content to managers and employees through interactive infographics presented in the DIVERSITe e-Zines.

The main innovation in the DIVERSITe project is the use of interactive infographics as key access points to the e-Zine curriculum. The infographics for managers and employees work as innovative pedagogic tools to engage both target groups in initial education on the topic of diversity management. Additionally, the project encourages employees to get involved in co-designing the diversity management plan with their employer, ensuring an ethos of inclusivity throughout the DIVERSITe education model.

Partners Meeting and Final Conference in Oberwart, Austria

The DIVERSITe partners met in Oberwart, Austria on the 4th of July 2024. This pivotal gathering brought together all project collaborators, who have been instrumental in creating learning content aimed at both managers and employees. During the final meeting, partners discussed the remaining tasks needed to ensure the project's success, focusing on refining the interactive infographics and finalizing other key deliverables.

The final conference in Austria also served as an essential dissemination tool, showcasing the comprehensive results of the DIVERSITE project. Attendees had the opportunity to see firsthand how the interactive infographics function as key access points to the DIVERSITE e-Zine curriculum, engaging managers and employees in initial diversity education and promoting an inclusive approach to diversity management planning. The collaborative effort in Austria marked the culmination of months of hard work and highlighted the commitment of all involved to making diversity management accessible and practical for workplaces around the globe.

Keep an eye on our project website [here](#), for the project's updates.
