**DIVERSITe**

## The DIVERSITe Project

The DIVERSITe project aims to provide access points to **work-based online learning environments** for diversity management in multi-ethnic, age diverse workforces. The project aims to provide bespoke, on-demand and accessible learning content to managers and employees through interactive infographics presented in the DIVERSITe e-Zines.

The main innovation in the DIVERSITe project is the use of interactive infographics as key access points to the e-Zine curriculum. The infographics for managers and employees work as innovative pedagogic tools to engage both target groups in initial education on the topic of diversity management. Additionally, the project supports employees to co-design a diversity management plan with their employers, ensuring an ethos of inclusivity throughout the DIVERSITe education model.

## Spotlight on Our MOOC: Your Gateway to Diversity Management

As we reach the conclusion of the DIVERSITe project, we are thrilled to share our efforts and the resources we have developed to promote diversity management in multi-ethnic, age-diverse workplaces. We invite you to explore and utilise the innovative tools and content we have created to foster inclusivity and collaboration in your work environment.

We are proud to announce that all our carefully curated materials are now available on the [DIVERSITe MOOC](#) platform! The MOOC provides bespoke, on-demand, and accessible learning content designed to support both managers and employees.

Key Features of the MOOC:

- **Interactive Infographics:** Our unique approach to diversity management education. These infographics serve as key access points offering an engaging and visually appealing way to learn.
- **For Managers and Employees:** Tailored content that addresses the specific needs and challenges faced by both groups, ensuring a comprehensive understanding of diversity management.
